The National Interoperability Information bU`e^kdb %KFFU& fp ^ cobb lkifkb qlli ^s^fi^_ib to public safety for sharing, posting, and reviewing documents. Totally secure, this central warehouse is ef cient and easy to use with online and telephone support readily available to answer any questions you may have. Originally developed to assist agencies as they developed their Pq^qb tfab @l j j rkf`^qflkp Fkqbolmbo^_fifqv Mi^k %P@FM& mi^kp clo fkqbolmbo^_fifqv) KFFU fp klq limited to statewide planning, but can be used to serve state and local public safety users who need a collaborative tool.

What is the National Interoperability Information eXchange (NIIX)?

NIIX is a national web-based resource designed to:

- Pbosb ^p qeb obmlpfqlov clo fkqbolmbo^_fifqv plans generated by the states, regions within or _bq tbbk pq^qbp) R>PF Ro_^k >ob^p) bq`+
- Molsfab ^aafqflk^i obplro`b j ^qbof^i ql Pq^qb tfab Fkqbolmbo^_fifqv Mi^kkfkd @l j j fqqbbp+
- >`q ^p ^k lkifkb k^qflk^i if_o^ov lc peer-supplied documents, including various plans, agreements, governance, policy, legislation, SOPs, funding, and other useful documents concerning planning and achieving interoperability.
- Molsfab pq^qb ^ka obdflk^i pr_*`l j j rkfqfbp the ability to manage draft documents, solicit comments, and manage member noti cation ^ka cbba_^`h+
- Molsfab ^ `lkq^`q ifpq lc lqebo KFFU @l j j r- nity members, giving members the opportunity to connect with public safety across the nation.

How can the National Interoperability Information eXchange system help me?

NIIX is a resource for sharing state interoperability plans, agreements, policy, SOPs and other valuable documents. NIIX can securely connect you with other state interoperability planners to facilitate information sharing and cooperation. NIIX can be used to create private communities to assist public safety communications entities and users in sharing relevant documents, calendars, and information.
