sligp@ntia.doc.gov
The State and Local Implementation Grant Program (SLIGP) was created under the Middle Class Tax Relief and Job Creation Act of 2012.

SLIGP is a three-year, formula-based grant program requiring 20% matching funds.

Funding is to help states plan and prepare for the forthcoming nationwide Public Safety Broadband Network (PSBN).

$116.2 million in grants have been awarded to 54 U.S. states and territories to date.
Help states and territories plan for a nationwide Public Safety Broadband Network (PSBN) by:

• Supporting planning, consultation, and outreach activities
• Engaging local governments, rural entities, Tribal Nations and all disciplines of first responders
• Funding efforts to collect data on existing infrastructure and equipment
• Enhance statewide governing bodies responsible for public safety communications to include broadband
• Effectively consult with FirstNet about characteristics and needs of states and territories
• Identify potential users for the forthcoming nationwide PSBN
• Update Statewide Communications Interoperability Plans (SCIP) to include public safety wireless broadband initiatives
• Collect data on existing infrastructure to help FirstNet plan for the forthcoming PSBN
State and Local Implementation Grant Program

The State and Local Implementation Grant Program (SLIGP) is a $118.15 million formula-based, matching grant program administered by the National Telecommunications and Information Administration (NTIA). The program is designed to assist regional, state, local, and tribal government entities as they plan for a nationwide public safety broadband network. Grants will support planning, consultation, education and outreach activities, as well as fund efforts to collect data on existing infrastructure and equipment that could be used by the First Responder Network Authority (FirstNet) in building a wireless public safety broadband network.
