To amend the Communications Act of 1934 to provide for the reallocation and auction of a portion of the electromagnetic spectrum to enhance law enforcement and public safety telecommunications, and for other purposes.

IN THE SENATE OF THE UNITED STATES

FEBRUARY 4, 1997

Mr. McCain introduced the following bill; which was read twice and referred to the Committee on Commerce, Science, and Transportation

A BILL

To amend the Communications Act of 1934 to provide for the reallocation and auction of a portion of the electromagnetic spectrum to enhance law enforcement and public safety telecommunications, and for other purposes.

1 Be it enacted by the Senate and House of Representa-
2 tives of the United States of America in Congress assembled,

3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the “Law Enforcement and
5 Public Safety Telecommunications Empowerment Act”.

6 SEC. 2. FINDINGS.

7 The Congress makes the following findings:
(1) Improvements in technology have made it possible for television broadcast stations to offer advanced television services.

(2) To facilitate the transition to advanced television services, the Federal Communications Commission is issuing additional licenses to existing broadcast licensees and permittees under section 336 of the Communications Act of 1934 (47 U.S.C. 336).

(3) As part of the transition to advanced television services, the Federal Communications Commission will develop and implement an allotment plan that will permit the repacking of television broadcast station licenses into a smaller segment of the Very High Frequency and Ultra High Frequency bands than presently used for broadcast television.

(4) Implementation of the advanced television service transition plan will enable the Federal Communications Commission to allocate spectrum to other purposes.

(5) Implementation of the advanced television service transition plan will permit recovery for the public of a portion of the value of the public spectrum resource made available for commercial use.
(6) Many of the State and local agencies responsible for law enforcement and public safety have inadequate spectrum and inadequate funding to maintain the existing level of, or to effect improvements in, the radio communications on which they depend to perform their missions.

(7) Implementation of the advanced television service transition plan will permit State and local law enforcement and public safety agencies to secure additional spectrum and additional funding for mission-related activities.

SEC. 3. DEFINITIONS.

As used in this Act, the term—

(1) “Board” means the Board of Directors of the Institute;

(2) “Director” means the Executive Director of the Institute;

(3) “Governor” means the Chief Executive Officer of a State;

(4) “Institute” means the Public Safety Telecommunications Institute;

“(2) shall surrender any license to operate such
a television broadcast station, or permit to construct

hertz.—
“(1) Public safety.—Within 30 days after
the date of enactment of that Act, the Commission

safety use. The provisions of chapter 5 of title 5,
United States Code, do not apply to the allocation
and assignment of spectrum under this paragraph,
and such allocation and assignment shall be carried
out as expeditiously as possible without regard to
any other provision of law or regulation thereunder
relating to notice and opportunity for a hearing.

The Institute shall work closely with the Commission in assigning licenses for the commercial use of that spectrum, and shall make such assignments in accordance with rules established by the Commission.

“(f) Sequential Assignment of Surplus Public Safety Spectrum.—If the Governor of any State to which spectrum is assigned for law enforcement and public safety purposes determines that a portion of that spectrum is excess to the needs of the State for such purposes, then the Governor may lease, sell, or otherwise assign any such excess portion to any person for any lawful purpose under this Act under such terms and conditions as the
Governor may require. Any term used in this subsection that is defined in section 3 of the Law Enforcement and Public Safety Telecommunications Empowerment Act has the meaning given to it by that section.
